

EDITORIAL

Golden Jubilee of our Association was celebrated with due pomp and grandeur, from 27th September to September, 1969, according to programme, though the preparatory arrangements commenced earlier in the session. Ardent effort of members, co-operation of all sympathisers, guidance of superiors, patronage of advertisers, encouragement of State Government welded into a corporate structure for the success of the function and success was achieved. Thanks to all. It was really exhilarating to see Golden Jubilee camp or secretariat throbbing with life. The zeal of younger members was manifest in their alacrity and their determination to achieve success. They crossed all hurdles with integrated efforts and let us hope greater success awaits them.

The last issue 'GOLDEN JUBILEE SOUVENIR' number contains some unfortunate inaccuracies, regarding names and address of members, for which the editor expresses sincere regrets. A fresh list is under preparation.

The scribe, with his shortcomings, had the privilege to serve during the hardest days and the memory of the struggle is the sweetest in his service to the Association. With the Golden Jubilee, the Association has turned round the corner and opened up more scope to pursue activities for improvement of the journal, for recognition of AMAE examination as comparable to university degree, for leading the Joint Council, for convening the Engineering Congress etc. The editor of the journal has to wield his quill with greater vigour and how I wish a deserving successor to fulfill the expectations.

The deliberations of the Golden Jubilee functions, are published in this issue of the journal which is treated as GOLDEN JUBILEE MEMOIR number.
