

## ANNOUNCEMENTS

### EARTHWATCH

EARTHWATCH, an international non-profit organisation, fosters scholarly research. Its affiliate organisation, The Centre for Field Research, receives, reviews and recommends research proposals for Earthwatch support. In 1994, Earthwatch is supporting 21 geoscience projects in disciplines including volcanology, oceanography, hydrology, biogeochemistry, geology, palaeontology and geography. Earthwatch is interested in raising its level of support to the geosciences community and is now considering proposals for funding in 1995. The grants range from \$ 10,000 to \$ 100,000. The fields of research are expected to be labour intensive and of public interest.

Preliminary proposals may be made to the Centre for Field Research. Upon favourable review, full proposals will be invited for submission at least twelve months prior to the proposed commencement of the project. Proposals will be considered from scholars of any nationality, for research in any geographic region. For further information contact: Dr. Andrew Hudson, Program Director, Earth System Sciences, The Centre for Field Research, 680, Mt. Auburn St., Box. 403, Watertown, MASSACHUSETTS 02272, USA. Fax (617) 926-8532.
