

ANNOUNCEMENT

SERC WINTER SCHOOL ON GEOLOGICAL MAPPING OF HIMALAYAN COLLISION ZONE AT DEHRADUN AND BHAGIRATHI VALLEY, UTTARANCHAL (DST PROGRAMME)

Geological Survey of India Training Institute will conduct a training course in geological mapping of the Himalayan Collision Zone at Dehradun and Bhagirathi Valley, Uttaranchal under the second five- year-cycle of SERC Summer/Winter School Mapping sponsored by the Department of Science and Technology (DST), Government of India. The course is for a duration of four weeks in September/October 2002 and will be essentially field training oriented and supplemented by theoretical lectures. The faculty for the course is drawn from experienced and distinguished geologists from the GSI and Academic Institutions. The course is open to young Research Scholars/Lecturers from Universities/Colleges and professional geologists from Central and State Organisations and Institutions who have actual interest in Geological Mapping of such terrain. Candidates should be below 35 years of age. There is no course fee and T.A./D.A. will be paid by DST as per rules. Application forms may be obtained from the Office of the Deputy Director General, GSI Training Institute, Bandlaguda, Hyderabad- 500 068; Phone: 040-4220681 and 4220682; Fax: 040-4220680; Email gsitihyd@hd2.dot.net.in. Completed applications should reach the above office not later than 31st May 2002.
