I am immensely happy to inform that the Indian Society of Anaesthesiologists (ISA) is entering a new era with the introduction of Zonal ISA Journals, for the various regions and zones. There is increase in the number of medical colleges and corporate institutions in India, where enormous clinic work and research is carried out. With the increasing desire for the young enthusiastic medical teachers to see their untiring research efforts to be published, the demand for the publications in recognized, indexed Journals from various quarters of India has

increased. I hope this type of new e-journals will satisfy the desires of the youngsters and pave the way for more, better quality research in India.

I wish the endeavor a Great Success!

Dr. S S C Chakra Rao

Chairman, Education Committee Indian Society of Anaesthesiologists (ISA)
