

From the Principal's Desk

It is indeed very gratifying to find that "Reason", the technical magazine of our college, is entering the 3rd year of its publication at the appointed time.

In fact, this annual event of the publication of "Reason" is looked forward to with keen enthusiasm by all members of the family of Kalyani Govt. Engineering College. "Reason" is indeed very close to our heart and that is why, despite financial stringencies everywhere, we take care to set aside a certain small sum in the beginning of the financial year to meet the expenses of its publication. Meticulous planning by an appointed board headed by the Editor next follows. Articles, submitted over a period of time, are then sieved through for quality and variety. Finally, the compilation is made after a laborious scrutiny.

The advent of "Reason" is the announcement of our progress and we proudly proclaim that both "Reason" and our college shall, with unfailing regularity, bloom and blossom further.
