Chairman's Message

Dr. S.S. Harsoor, M.D.
Chairman, Academic committee &
Past President,
Indian Society of Anaesthesiologists

The launching of the Central Journal of ISA (CJISA) will certainly mark a beginning of a new era in exposing the academic and research potential of Indian Anaesthesiologists, especially from Central zone of ISA.

The perseverance of ISA to promote academic and professional excellence has resulted in IJA meeting the high global standards of academic objective evaluation process. Thus the IJA has expanded its citation potential by entering Thomson Reuters ESCI. The entire Editorial team of ISA must be congratulated on achieving this extraordinary feat. The President and the Governing Council of ISA richly deserve to be complimented for exhibiting a far reaching vision, but for whose support, such an achievement would not have been possible.

The present ISA initiative and the hand holding by the parent journal led by the Editor-in Chief of IJA, will certainly provide an additional platform for all its members to showcase their work in the field of Anaesthesia and Critical Care including the concerned subspecialties.

I wish the Editorial team CJISA a great success in their endeavors.
