

Editorial Message

ADE is young, JADE is emerging and JADE is learning!

The journey, though short, so far, has brought wide learning experience for the Editorial Team. It has had its share of fun, learning coupled with anxiety to meet deadlines.

Due to the demand of post graduates students to be included in JADE, The Academy and the Editorial team has opened its publication portal to welcome post graduate students pursuing MDS/Diploma in various dental specialties. The USP of JADE continues with a Lead Article by an eminent teacher in the field of Dental Sciences. Prof. Dr. S. G. Damle, Vice Chancellor, Maharishi Markandeshwar University Mullana (Ambala) 133207 Haryana, is the lead author in this issue.

To keep in sync with the necessity to produce well rounded dental professionals who are 'Practice Perfect' with the ability to grow into young dynamic leaders with lateral thinking, the Editorial Team has invited articles from leading Trainers and Management Professionals to contribute in this growth. Prof. Aroop Banerjee, is providing us insights in this issue.

Prof. Reena R. Kumar
Editor in Chief
