Indianapolis, Indiana

Details available at <a href="http://www.or2015.net/">http://www.or2015.net/</a>

# Environmental Pollution and Health

V K Ahluwalia

2015 • ISBN: 9788179934616 Pages: 120 • Binding: Paperback Size: 160 × 240 mm • Price: ₹225.00

Pollution as we know is an undesirable change in the physical, chemical, and biological characteristics of the environment. Environmental Pollution and Health expounds the three main types of environmental pollution—air, water, and land—and their effects on human health. It also focuses on photochemical air pollution, marine pollution, thermal pollution, noise pollution, and radioactive pollution and their effects on human health. The book also discusses the impact on the health of the human beings by factors other than pollutants. These factors include occupation of a person, stress, global warming, and ozone layer depletion. Finally, the author has dealt with various types of wastes generated in different establishments and how they should be managed.

### Table of contents

- Describes the measures to be taken to control industrial wastes
- Explains effects of radioactive pollutants on health
- Elaborates the different types of wastes
- Discusses how various types of wastes can be managed

### Table of contents

- Introduction
- Air Pollution
- Water Pollution
- Soil Pollution
- Thermal and Noise Pollution
- Radioactive Pollution
- Health hazards due to factors other than pollution
- Management of Wastes
