Call for Papers

INTERNATIONAL CONFERENCE ON DIGITAL LIBRARIES (ICDL 2013)

27-29 November 2013, New Delhi

Today's knowledge divide refers to the gaps that exist in the four building blocks of knowledge societies, namely knowledge creation, knowledge preservation, knowledge sharing, and knowledge application. Digital libraries enable people to access, share, and apply knowledge. Across the world, the need for timely and relevant information has emerged, which is sometimes not accessible. With the development of digital libraries, users can now access information and continue quality research.

Although research and development relating to digital libraries started in developed parts of the world, digital libraries are in reality a global phenomenon. Recent trends show that digital library development in the developing world is also gaining momentum. While overcoming the digital divide is a challenge, global librarians and knowledge workers feel they have a role to play in bridging the digital divide through creation of digital libraries.

Important dates to remember	
Submission of full papers	20 July 2013
Notification of acceptance of paper with comments	15 September 2013
Submission of the final paper after incorporating comments	10 October 2013

ICDL 2013 invites original submissions focusing on the theme of the conference— **Vision 2020: Looking back 10 years and forging new frontiers.** Contributions are invited for conference sessions and tutorials. Topics for contributions (but are not limited to) include the following:

- DL development, architecture, and management
- Information storage and retrieval
- Multi-linguality and interoperability issues
- Digital rights management
- Digital preservation and access management
- DL best practices
- E-learning and e-publishing
- DL standards and policy
- Open archives initiatives
- ODOL (Open, distance, and online learning)
- Multimedia content
- Sustainable DL model
- DL service marketing
- Digital research libraries
- Social media and network analysis
- Collaborative knowledge creation
- Information quality management
- Enterprise 2.0 and collaborative model
- Knowledge management business models
- Convergence of knowledge management and learning system
- Mobile technology and service-oriented architecture
- Information and communication model
- Knowledge management best practices

Papers should be submitted in soft copy format to the ICDL secretariat < ICDL2013@teri.res.in > or online using the conference website www.teriin.org/events/icdl. For details of paper submission guidelines and submission, visit www.teriin.org/events/icdl.
